## 1 PRESENTATION OF THE ORGANISING COMMITTEE

SUPERBIKE was born in 1989 as a moment of aggregation of people in love of nature and mountain biking, to promote a sharing project, live emotions and let young people experience them.

The first results in the competitive field were already obtained in 1990.

For over thirty years SUPERBIKE has established itself on the regional and national territory in order to promote and encourage the discipline of MTB among young people, especially for the Cross Country discipline.

The MTB School was founded and recognized on the national territory by the Italian Cycling Federation and has experienced and trained instructors with the aim of teaching young athletes the techniques of mountain biking and favoring moments of aggregation and socialization, aiming at respect for nature, with the hope of one day seeing the birth of a champion.

In 2012 the ASD SUPERBIKE TEAM won the Italian youth championship for clubs and since 2013 organizes national youth events.

The Superbike team is a member of the organizing committee of the Grand Prix Centro Italia (a circuit especially for Youth categories) and from 2022 he is also in the organizing committee of the Italia Bike Cup circuit.
